

PRODUCT DESCRIPTION

Sprayable, metal-free assembly paste for the assembly of highly stressed components, screw and push-in connections, as well as for lubricating highly stressed areas. Offers long-term protection from fretting corrosion and galvanic corrosion, as well as from fretting and wear.

ADVANTAGES

- » Metal free
- » White coloured solid lubricants
- » Extremely pressure resistant
- » Very good separating effect

APPLICATION

- » Clean designated areas well. Shake can well before use. Spray from a distance of approx. 15 cm.
